Committees

Steering Committee

Jen-Yao Chung, IBM Research, USA
Tei-Wei Kuo, National Taiwan Univ, Taiwan
Feipei Lai, National Taiwan Univ, Taiwan
Kwei-Jay Lin, Univ of California at Irvine, USA
Jane W. S. Liu, Academia Sinica, Taiwan

General Co-Chairs

Janming Ho, Academia Sinica, Taiwan
Lu Lu Liu, Shinewave International Inc, Taiwan
Lionel Ni, Univ of Science and Technology, Hong Kong

Program Co-Chairs

Waiman Cheung, Chinese Univ, Hong Kong
Jane Yung-Jen Hsu, National Taiwan Univ, Taiwan
Chi-Sheng Shih, National Taiwan Univ, Taiwan
Too Seng Tia, Avanade Asia, Singapore

Special & Tutorial Sessions Chair

Chih Wen Hsueh, National Taiwan Univ, Taiwan

Exhibition Coordinator

Ting Li Lin, Academia Sinica, Taiwan

Local Arrange Chair

Tsung-Wei Hu, Academia Sinica, Taiwan

Publicity Co-Chair

Michelle Lee, Academia Sinica, Taiwan

Program Committee Members

Ajith Abraham, Chung-Ang Univ, Korea
Masanori Akiyoshi, Osaka Univ, Japan
Kuo-Ming Chao, Coventry Univ, UK
Patrick Chau, Univ of Hong Kong, Hong Kong
Ray Cheng, Stark Technology Inc., Taiwan
Shiwa Fu, IBM T. J. Watson Research Center, USA
Jiun-Long Huang, National Chia-Tung Univ, Taiwan
Yue-Sun Kuo, Academia Sinica, Taiwan
Althea Liang, Singapore Management Univ, Singapore
Yinsheng Li, Software School of Fudan Univ, China
Ren-shan Luoh, Academia Sinica, Taiwan
Ming Kang Ouyang, Academia Sinica, Taiwan
Wilson Wang, Institute of Information Industry, Taiwan
Muhammad Younas, Oxford Brookes Univ, UK

Call for Paper

The 2007 International Conference on Enterprise Systems and Applications (ICESA 2007) will held in Taipei, Taiwan, December 12 and 13, 2007. It intends to provide a forum for researchers, developers, vendors, educators, decision makers and users who are active and interested in enterprise software, systems and applications. The conference program will enable them to exchange ideas, identify needs and challenges, disseminate innovations and new developments, report experiences and foster interactions and collaborations. In addition to sessions of technical papers and panel discussions, the conference also plans to have tutorials and industry exhibitions.

You are invited to submit research papers and experience reports in all areas related to enterprise software, systems and applications. Topics of interest include but not limited:

- Enterprise applications, e.g., ERP, CRM, EIP and SCM
- e-service and application architecture and software
- Service-oriented, component-oriented and model-driven architectures
- Languages and tools for business process modeling, definition, and management
- Techniques and tools for workflow definition, validation and verification
- Enterprise computing middleware components and architectures
- Enterprise application integration and business-to-business integration
- Domain specific enterprise computing concepts and practices
- Evaluation and assessment

Important Dates

- | | |
|--|--------------------|
| • Proposals for special sessions and tutorials due | June 8, 2007 |
| • Paper submission deadline | July 1, 2007 |
| • Notification of acceptance | September 17, 2007 |
| • Camera-ready copy of acceptance papers due | November 2, 2007 |

Submission Guidelines

Two types of papers are solicited: research papers and experience-report/case-study papers. Research papers should be on results that have not been published, accepted or submitted for publication elsewhere. Experience reports should describe insights and lessons learned from development, use or assessment of enterprise software, systems and applications. Each submitted paper should contain 2000 words at least and 5000 words at most (i.e., approximately 8 to 20 double-space pages.)
